

Zebrafish Research Systems

Integrated Housing, Filtration & Support for Biomedical Research

danielab
a division of Oceans Design, Inc.

With more than 30 years of experience in aquatic holding systems, Danio Labs, a proud Oceans Design, Inc. company, is your trusted partner in system design, advanced filtration, and dedicated service. We work alongside your team to protect animal health and ensure uninterrupted research continuity.

FEATURES AND SERVICES

- Strong design team offering 3-D modeling for your research facility
- Compact high-density configuration to maximize research volume
- Integrated filtration and disinfection systems
- Cutting edge computer monitoring and control
- Custom design available when standards don't meet your requirements
- Manufactured with ease of maintenance in mind
- Professional installation and on-site training

STANDARD RACK CONFIGURATION

MODEL	CONFIGURATION & VOLUME
2S.4T-ZFR	2 shelf, 4 tank, 32L
5S.8T-ZFR	5 Shelf, 40 Tank, 160L
5S.10T-ZFR	5 Shelf, 50 Tank, 200L
5S.12T-ZFR	5 Shelf, 60 Tank, 240L
6S.8T-ZFR	6 Shelf, 48 Tank, 192L
6S.10T-ZFR	6 Shelf, 60 Tank, 240L
6S.12T-ZFR	6 Shelf, 72 Tank, 288L
ZFR-CUSTOM	"X" Shelf, "X" Tank, "X"L

Integrated Housing, Filtration & Support for Biomedical Research

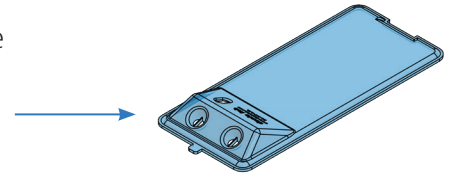

danielab
a division of Oceans Design, Inc.

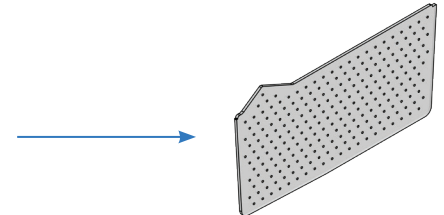

RACK FEATURES

- 304 or 316L stainless steel with marine epoxy powder coat finish
- Dock aligns tank with water feed
- 316 stainless steel leveling legs
- Single and double sided racks available
- Saltwater upgrade available

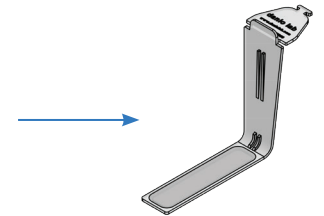

- Polycarbonate blue tinted lid with dual feeding holes and water delivery port

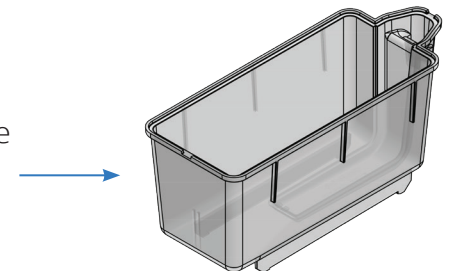

- Slide-in divider creating two 2 liter sections

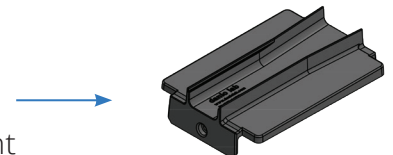

- L-Shaped baffle design promotes natural funneling of waste and debris. Available with 300µm, 800µm, and 1600µm

- High quality, durable polycarbonate tank for clear viewing

- Tank dock provides ease of tank removal, security, and alignment
