

Danio Nutrition

Diets & Dispensing

Zebrfish Feeders:

Designed with the user in mind

- Our feeders were specifically designed to accurately dispense the sensitive Gemma 300 feed and work with many other dry feeds in the 100-500 micron range.

MODEL: ZF ONE

- The ZF ONE Zebrfish Feeder is a new smaller model with one fine dose setting. The preset feed range is ideal for 1-2 adult fish and larval tanks.

Features:

- 6061 Anodized Aluminum Construction
- 45 mL Capacity
- 1 Preset Dose Setting
